OCTOBER | 2016

# Cowboy CHRONICLE

Amidst the Main Match, the Wild Bunch Match, and Side Matches galore, Lacey D'Oyly, Idaho Sixgun Sam, Serenity, and Silver Heart take time out at END of TRAIL 2016 to recreate this distaff version of the iconic poster image from the movie, *Tombstone*.

# From The Editor

# SKINNY'S SOAPBOX

By Skinny, SASS #7361

Skippy, SASS #7361

### Get out and Vote!

For the past several issues, I've been harping on the importance of this year's Presidential election. Colonel Dan of course touches on the same subject later on in this edition and we both agree Donald Trump—like him or not—is the candidate for whom we should vote.

In a previous editorial I touched on the principle we are not voting for a President for four years this time around, but for the composition of the Supreme Court for the next generation or more. As part of one more appeal for Trump, I'd like to expand on that with statistics provided me by my friend Kenny Reds (SASS #83266), whose rhetoric is compelling enough I'll share it here virtually as it came to me.

As it now stands, our next President will likely be able to appoint at least two Justices. One certainly is Scalia, who has died, and the second is Thomas, who has stated he will probably retire after the election. Were Trump to be elected, he would presumably appoint two conservative Justices and keep the Court at its current 5-4 ratio, slightly favoring the conservative position. Should Clinton become President, however, she'd have the chance to appoint two liberal judges, swinging the Court to a 6-3 liberal majority. Look for Second Amendment interpretations we don't want to think about, should that happen.

Depending on your views, it could get better or worse from

there. Three of the Justices remaining are 77 and older and so ripe for retirement or to die in office. Bill Clinton appointed Ginsburg and Breyer, whereas Reagan appointed Kennedy. If we speculate Ginsburg and Breyer retire, for an example, then Trump could appoint two conservatives and the Court's composition would become a 7-2 conservative majority – specifically, the Second Amendment would be safe for the next few decades. If Clinton, on the other hand, were to appoint two liberals in addition to her former two liberal appointments, then the composition would stay at a 6-3 liberal majority.

The permutations of retirements and appointments are many. This was just one example. But no matter how you speculate the numbers, the reality is, with a Clinton White House we would likely get a liberal majority in the Supreme Court that would last till 2050. With a Trump administration, on the other hand, we have the possibility of a conservative majority till 2050. Take your pick.

—Skippy 🐾

## ANNOUNCEMENT

### Howdy SASS members,

SASS Headquarters is prepping for a future relocation! The office building that is currently being leased by SASS for our World Headquarters offices in Edgewood, New Mexico is being listed for sale by the owners of the building. While we cannot speculate as to the time frame, once the building is sold, the SASS Headquarters office will be relocated to another smaller, more economical facility in the area. Worry not, members- as you see a "For Sale" sign being raised at the SASS HQ building-all is well with SASS, we are thriving as an organization and aren't going anywhere! 🐾

### Thanks!

Misty D. Miller  
aka Misty Moonshine

# END OF TRAIL 2016

By Captain George Baylor, SASS #24287 Patron Regulator  
Photographs by B. T. Blade, SASS #35685

Captain George Baylor,  
SASS Life / Regulator #24287

*Cowboy Action Shooters™  
are proud of their holster rigs  
and accoutrements, as evidenced here.*

*Founders Ranch, New Mexico, June 16-26 2016—The Thirty-Fifth Annual END of TRAIL. Cowboy Action Shooting™ was conceived by a small group of IPSC shooters who wanted to shoot their cowboy guns, but the birth of Cowboy Action Shooting™ was END of TRAIL, which predates SASS®. The sport grew from there. It is still THE World Championship of Cowboy Action Shooting™.*

### Founders Ranch

Since 2005 it has been held at Founders Ranch, a 400-acre ranch in a gun friendly state developed for and devoted to SASS activities. In the valley there are 17 separate bays, a separate long-range area, and a Mounted Shooting Arena; and at the top of the hill by the main gate the Founders Ranch Shotgun Sports Club covers the rest. Next to the shooting bays, an old west town has grown over the years END of TRAIL has been here. In the center is the Belle Union, the auditorium/dining/party

room. In front, the Copper Queen Hotel houses the administrative offices, and on top is the Happy Jack Saloon, once limited to VIPs, now accessible to everyone. On either side of the Belle Union are buildings housing the SASS Mercantile, the NRA Museum's exhibit, and several old-line vendors and supporters of SASS. Other vendors are in several rows of tents including one big, air-conditioned tent that has become v-e-r-y popular with both vendors and contestants. Vendors you know and some you don't were at END of TRAIL, and some told me it was

their best event ever. If you have merchandise or services SASS members want, this is where you should be in June.

At the north end is the notorious den of iniquity, the Gem Saloon, home to the Cimarron Firearms Poker Tournament, a few parties, and judging for the three costume contests.

Not too far away is the chapel, picturesque and by itself, far enough the wickedness of the Gem doesn't extend to its doors. Up the hill is the RV Park, large enough for several hundred RVs, and it becomes filled

VISIT US AT SASSNET.COM

## END of TRAIL 2016 . . .

with everything from tent campers to luxury motor coaches. Several parties occur there, some planned, some spontaneous.

While the main match consists of three days, activities started on Thursday, June 16 with a Wild Bunch RO Class, and the Founders Ranch Shotgun Sports Club started hosting several shotgun side matches, open every day except Sunday. There were Sporting Clays team matches for Wild Bunch, Smokeless, and black powder, and Young Guns. The Wild Bunch and Cowboy Clays course side match had awards for Wild Bunch and Cowboy, men's, Ladies, and Young Guns.

Wild Bunch started Friday with a four-stage warm up. Then Saturday through Monday the main Wild Bunch match ran, four stages a day, just like the Cowboy match.

You will hear "Wild Bunch is not Cowboy Action Shooting with 1911s" frequently. This was certainly true at END of TRAIL. The Wild Bunch match consumed 446 rounds of ammunition, with 315 pistol. The highest number of pistol rounds on a stage was 30. The stages were usually fairly simple and always interesting. Targets were as small as 6" and as usual, pistols were used at "rifle" targets. The shotguns, 97s and Model 12s, started stoked with six rounds, 55 rounds total in nine stages. None of the shotgun stages needed more than six rounds. Seventy-six rifle rounds were used in nine stages. No one shot the Wild Bunch Match clean. The Senior categories (65 and over) comprised 40 percent of the contestants. I have noted a marked improvement in the level of "average" shooters since 2008, the first Wild Bunch at END of TRAIL. Pistol

*As with past events, the Boy Scouts were on hand to bus up all available brass for the shooters. Their help is always greatly conducive to a smooth-running match.*

malfunctions have decreased dramatically and shotguns aren't the malfunction fests of the early years. And the top end shooters have gotten very good indeed. Last Chance Morales dominated, winning eight stages outright. Modern Senior champion General Jubal Early was eleventh overall. Traditional champion Garrison Joe and Traditional Senior champion Tex were neck and neck the entire event. Idaho Sixgun Sam won Ladies Modern handily.

*(Continued on page 8)*

# Mernickle Holsters

Helping to create **"World Champions"** since 1975.

When it comes to "High Performance" Bob Mernickle "world champion Speed shooter and multi speed record holder" knows how to get to the gun fast! "He then says you have to get it back in equally as fast!" Welcome to the

**NEW "HP series" of Cowboy Action Shooting Holsters.**

**High Performance**  
HP1 REF1

The NEW HP1 REF1 comes with a lot of new design ideas.

Here are just some of them.

- We have dropped the holster down 1 1/2" lower than anything we have done before making for an easier reach for the gun.
- We have cut the front down to allow a full thumb landing on the upper frame for those who do a gun transfer.
- For gun transfer we now do a taper below the trigger guard that tapers to the point where the guard meets the frame allowing the center finger to reach under the guard for a one hand draw keeping the grip frame completely free of the hand. This makes doing a gun transfer easier than ever thought possible. The side has been dropped and then flared out for the easiest re-holster ever!
- The new "WR" Wrist Relief! This is designed into the angle of the holster so when you reach for a gun you will not have to flex your wrist back to grab the gun yet you will be able to bring the gun straight up for an extremely fast draw with the quickest accessibility to the front site ever!
- The newly designed "Speed Load" shell holder no longer needs a stopper plate under the shells and can be staged at any height you the shooter would like to see them at. Also you no longer have to pull the shell straight up. You are free to choose the angle of grab which suits your shooting style the most.
- Then to finish all this off we have had a new dye lot created called "Gunfighter Brown"

*Now you can shoot fast, be accurate and look good at the same time. It doesn't get any better than that!*

*Evil Roy—still coming on strong as a Silver Senior.*

## END of TRAIL 2016 . . .

*(Continued from page 7)*

Second Fiddle Sue won Ladies Modern Senior. Ladies Traditional champion was Lacey D'Oyly and Ladies Traditional Senior champion was Lawless Lil.

Saturday night Wild Bunch contestants were treated to Green Chile Cheeseburgers in the Bell Union.

Wild Bunch side matches included speed matches for men and ladies with all the Wild Bunch main match guns (Traditional and Modern 1911s), BAM (Bolt Action Military) long-range precision and speed rifle matches, and a Wobble trap two-man team event.

### Warm Up, Clinics, Side Matches

Cowboy Action Warm Up matches started Monday morning with two waves a day of four stages for two days.

There were two shooting schools, one by Cobra Cat. Shamrock Sadie and the Doily Gang held a transitions clinic for ladies only.

Side matches included Texas Surrender—five pistol rounds against a Texas Star and four-shotgun knockdown, and World's Fastest Cowboy—with 24 knockdowns. Speed matches included derringer and pocket pistols, rimfire pistols and rifles, speed rifle, pistol, and shotgun for doubles and for 87/97.

Long-range side matches included Single Shot Blackpowder and Smokeless, Buffalo Rifle, Lever Action Pistol Caliber and Rifle caliber rifles.

Plainsman was a four-stage Blackpowder match with single shot rifles, percussion pistols, and double or lever-action shotgun.

Then came the END of TRAIL Thirty-Fifth Anniversary World Championship Opening Ceremonies in the Belle Union. All of the previous END of TRAIL champions who attended were presented. This year's crop of SASS Regulators was an-

## END of TRAIL 2016 . . .

*(Continued from page 8)*

nounced, the only SASS Badge you can't buy. The SASS Scholarship Winners were announced. Afterwards refreshments, drinks, and food were served.

### Extra Curricular Activities

The antique Shooting Gallery was open all week. Friday night had barbeque and entertainment and the Cimarron Firearms Poker Tournament. Saturday night had another party with entertainment.

### Main Match

END of TRAIL went through an evolution the last few years. T.A. Chance became match director in 2014 and in 2015 Lassiter joined him. They continued this year. The result has been a shooting match that is entertaining for all contestants. Attendance has increased every year as a result, up 19 percent this year. Some matches are aimed at challenging the few contestants who are capable of an overall win. This was aimed at entertaining everyone. Out of the 641 shooters, 147 shot clean matches. There are those who will say, "That makes it too easy." You can say that, but all of those 147 shooters will want to come back, and so will all of the shooters who *almost* shot clean. Everyone shooting the match knew they *could* have shot clean. Many competitors have no chance of getting a top-10 buckle, but they can aspire to a clean match pin.

The stages were also ambidextrous, meaning they could be run right to left or left to right. Six were "mirror image" stages. The stages were straightforward and not confusing. You didn't have to watch ten shooters to figure the stage out. It was a gunfight, not a memory contest.

### Top Ten

This was a Rank Points match. Each stage is scored individually and the total combined score for all stages fired is ranked for place of finish overall. Looking at the results, first overall Missouri

*Lassiter and T.A. Chance—END of TRAIL Thirty-Fifth Anniversary Match Directors.*

Lefty (Junior Boy!) had a total time of 193.19 seconds and 124 rank points. Matt Black was second overall, first place Cowboy, with 201.69 seconds and 182 rank points. Duke Skywalker, first Wrangler, third OA, 200.20 seconds, 187 rank points. Drop down to tenth, Lead Ringer, first 49'er, 206.44 seconds, 305 rank points. That's 1.1 seconds a stage—from first to tenth.

Then you look back up the top 10 and notice a D listed. Duelist? Yep. Pecos Nick, fourth OA 200.99 seconds, 212 rank points, shooting duelist! Then eighth OA, with 206.14 seconds and 280 rank points, Damascus John shot Frontier Cartridge!

SASS Kicker, Cowgirl, repeated as Top Lady, 222.37 seconds, 619 rank points, 27<sup>th</sup> overall.

Half-A-Hand Henri won her tenth World Championship in her tenth category, in this case Ladies Senior Frontier Cartridge. Ten World Championships in ten different categories was her goal, and she did it. Quite an accomplishment! I believe she's the first and only.

*TL, who—together with Jim Bowie—runs the Cowboys and Indians Store, keeps 97 shotguns and other Cowboy Action Shooting™ firearms running smoothly and efficiently.*

## END of TRAIL 2016 . . .

### Sunday Morning Top Gun Shoot-offs

In the center bay, Bahia De Coto, complete with bleachers (and the balcony of the Happy Jack Saloon) were a few shoot-offs, working their way to Top Gun in Wild Bunch and Cowboy. It was fun to watch. Then we received our awards or applauded those who did. Then we left, sighing that it was over, and it will be a year before we can come back.

### Next Year

T.A. Chance is retiring with the thanks of everyone who has shot in his events. He has changed the shooting part of SASS for the better and we're grateful. Match directors for 2017 are Lassiter and Deuce Stevens.

Each END of TRAIL has gotten better and better the last three years. If you haven't been lately, come back. You'll like it.

### Categories at END of TRAIL 2017.

#### READ THIS

END of TRAIL will add an age-based shooting style (Duelist, Gunfighter

*The 1887 is a difficult shotgun to shoot well, but Serenity seems to have it down pat.*

and ladies) or Blackpowder category (Frontier Cartridge and ladies, Frontier Cartridge Duelist and ladies, Frontier Cartridge Gunfighter and ladies, Frontiersman) if there are sufficient entries in by the cutoff date (it was May 1 this year; check the SASS/EOT website). The Interactive entry blank will have boxes to click

for open, Senior, or Silver Senior above the shooting style and Blackpowder categories. You must check one of each.

Some didn't see that or understand the form. It wasn't highly publicized. Some entered online. NEXT YEAR if you want an aged based category that is

*A. Uberti*  
HISTORY REPEATS ITSELF

**Uberti's Short-Stroke Action**

The short-stroke concept reduces the hammer-travel by about 20% compared to a regular single-action revolver. This reduction translates in time saved when every second counts.

# FASTEST IN THE WEST

**SINCE 1959**

Whether you shoot one- or two-handed, the Uberti Short Stroke SASS Pro will be the fastest sixgun on the line. Its clockwork-like action, short-stroke hammer (-20% travel) wide, easy-cock hammer spur and deeply-checked wood panels make it shoot as good as it looks.

winning isn't just for Juniors anymore.*

## END of TRAIL 2016 . . .

*(Continued from page 15)*

“non-standard,” say, Silver Senior Frontier Cartridge, you check Silver Senior and Frontier Cartridge. If there are seven men or three ladies, you’ll have a category. Unfortunately, for 2016 only five 60-plus Frontier Cartridge shooters entered by May 1, so they didn’t get a category. One bemoaned to me there was no way he could be competitive with young shooters. I agree. Next year there might be enough entrants for Senior Frontier cartridge or even both Silver Senior and Senior Frontier Cartridge as well as (Open) Frontier Cartridge.

END of TRAIL is the World Championship. There should be categories for all, and people are living longer and remaining healthy. There are readers who have stopped coming to END of TRAIL because there is no age category for them, and it was frustrating to spend what END of TRAIL costs with no chance of winning. Come back. With sufficient entries, there will be a spot for you next year.

*(See more HIGHLIGHTS continued on page 18)*

## NEW IMPROVED EVIL ROY LEATHER LINE

New fully steel/leather lined holsters keep the holsters rigid and adjustable for tension for years. Compress the holster for a slightly tighter fit or expand it for a looser fit. Allows a shooter to choose tension low on the barrel or on the cylinder. The higher 1880's style sides make for a longer funnel for reholstering your firearm and for better retention. The front of the holster is cut down and the trigger guard exposed for a fast draw. Available in strong side, cross draw or muzzle forward.

**Made by Ted Blocker Holsters, Quality Leather Products for 40 years.**

# Costuming Corner

# Costume Contests *at* *THE* 35<sup>TH</sup> ANNUAL END of TRAIL

Cat Ballou,  
SASS #55

By Cat Ballou, SASS #55

Photographs by B. T. Blade, SASS #35685

**F**ounders Ranch, New Mexico – This year marked the thirty-fifth anniversary of END of TRAIL and 35 years of the evolution of costuming in our sport. Those early days of costuming saw us mostly dressed in snap button shirts, blue jeans, and straw hats. Many assembled “costumes” through finds at thrift stores. A bit later some vendors such as River Junction Clothing, Old West Outfitters, and Wah-Maker saw the potential Cowboy Action market growing and SASS® members were able to purchase authentic period era clothing. And, Old West and Victorian patterns became available for the proficient seamstresses to create their own ensembles. We definitely have come a very long way from those early days as evidenced by the fabulous costumes exhibited at this year’s event.

END of TRAIL is the world championship of Cowboy Action Shooting™ and also the World Championship of Costuming, so there are numerous costume contests in which folks can participate. A Wild Bunch costume contest takes place during the Wild Bunch shooting competition, and during the main event two costume contests are available—the Daytime Shooting Costume Contest, judged during the Thursday and Friday shooting relays, and the Best Dressed Costume Contest held Saturday evening. The Mounted Shooters hold their own costume contest, which includes the horse’s tack.

Our continuing sponsor of all the costume contests is

Wild West Mercantile of Mesa, Arizona. They have been our costume contest sponsor for at least two decades. Please make sure to visit their website at [www.wildwestmercantile.com](http://www.wildwestmercantile.com) for some of the finest in Cowboy Action outfits.

Costume contests can’t happen without judges, and our judges are some of the best around. Wild Bunch judges were Copper Queen, Capt. George Baylor, and myself. Shotgun assisted with the Wild Bunch signups.

Daytime Shooting Costume judges were Copper Queen, Sloan Easy, and Captain Cooper for all the shooting costumes and Creek Harding for gun carts, while “costume wrangler” Baby Jane Doe handled the sign-ups.

Best Dressed Costume judges were Copper Queen, Sloan Easy, and Captain Cooper. Baby Jane Doe again assisted as “costume wrangler.” These folks have been volunteering their time as judges and helpers for quite a few years now, and I truly appreciate their fine efforts! Plus, they are some of the most knowledgeable costume judges in all of SASS.

So, take a look at all the photos of the costume winners, first through third place, and the descriptions of their winning outfits. Thanks again to everyone who

Model 1885 Hunter Rimfire

***There is only one name for a genuine lever-action: Winchester.***

In the Old West a hard-riding cowboy treasured a good hat, a smart horse, a comfortable saddle and a rifle that carried the name Winchester. Proudly crafted in steel and walnut, the lever-action repeating saddle rifle was the "Gun that Won the West."

Today these classic Winchester rifles can be yours: The robust Model 1886, the legendary Model 1873, the iconic Model 1892, the famous Model 94<sup>®</sup> and the single-shot Model 1885. While a tenderfoot might be content with an off-brand substitute, no gun will ever offer the lasting value, reputation, fine workmanship, smooth feel and absolute dependability that a genuine Winchester lever-action brings to your western rifle collection.

It's high time you slid a genuine pioneer of the Old West into your scabbard from the only gunmaker worthy to stamp the Winchester name on the barrel.

# END of TRAIL MOUNTED SHOOTING WORLD CHAMPIONSHIPS

By Colorado Cupcake, SASS #96810

Photograph by B. T. Blade, SASS #35685

*With national and international representation, Mounted Shooting contributes its own individual and exciting uniqueness to every annual END of TRAIL.*

**F**ounders Ranch, NM – The Thirty-Fifth Annual SASS® END of TRAIL ceremonies lead the way for the opening of the SASS Mounted Shooting World Championship. Mounted riders and cart drivers alike gathered at the Wah-Maker Mounted Shooting arena to engage in a competition that gives the Old West Spirit a kick in the trousers. Horses and shooters work together to conquer unique courses that are challenging yet intriguing.

On Thursday, out-of-towners pulled horse rigs of every shape and size down to the arena for registration and a great Mounted

Shooting clinic. Shooters came out of the clinic with new ideas, new excitement, and a new love for the sport of Cowboy Mounted Shooting. Afterwards, we all gathered in the big white tent to feast on Pot Luck vittles. We enjoyed our version of fine dining and great stories from our fellow shooters. As storms were brewing above us, we went to bed that night wondering if the rain would wreak havoc on our arena as it did in 2015!

Early Friday morning, the growl of a tractor gave us all hope. Yes... it rained, but the very wet arena and weeded practice arena were ready for competition when the time came.

We started off the day with a grand entry. Fire Fox (SASS #80377) carried the US flag with grace and honor as several shooters followed with flags from New Mexico, Colorado, a SASS flag, and a Buffalo Range Riders flag. Aneeda Huginkiss (SASS #23798) sang the Star Spangled Banner with a masterful voice and a western flare. Shooters, spectators, and balloon-setters all listened to the rider's/driver's safety meeting with rapt attention. Colorado Cupcake jumped off of her miniature horse-cart and ran up the stairs to give the invocation before our start.

One shooter after another took on Stages 1-3 with fire, encouragement, and dreams of that World Championship title! Each horse gave their all, and each rider/driver maneuvered through the course in hopes of shooting a clean, fast, and memorable run. We went through 25 Mounted Shooters, one Buckaroo, one

## END of TRAIL • Mounted Shooting World Championships . . .

Buckarett, and one pioneer cart shooter. We soon moved on to our rifle shooters, taking on two intense courses. We had two brave souls willing to take the challenge. Chili Cowboy (SASS #59663) finished with a great run, but it was Stuttering Wayne (SASS #71602) on his Icelandic who finally took the cake.

In an attempt to break the World Speed Record set by Bam Bam (SASS #86267) in 2013, five brave shooters oiled up their guns, cranked up their horses, and turned up the heat to see who has the extra special fire. It was Clinch Cutter (SASS #92934) who ran an amazing 18.447seconds... not quite beating the record, but so close we had to check the numbers twice. It was the competition this year that helped push Clinch Cutter to the top for 2016 World Speed Contest.

After cooling down our horses, we all headed to SASS town to strut our stuff for the Friday parade of Mounted Riders. We stampeded through SASS town with our flags waving. At the end of the day, a few of us changed into our most unique duds, rehearsed the story about our costumes, and wished good luck to the competition as the 2016 Costume Contest took place. There were three Mounted Shooting entries.

Aneeda Huginkiss was first with a historical account of the infamous female stagecoach robber, Pearl Hart, the only woman to successfully rob a stagecoach. She was dressed in frontier pants with a nice western shirt, accompanied by a hat slightly tilted to the side, as was a trademark of her character. As night fell upon us, several of the Mounted Shooters joined the Cowboy Action Shooters™ for a great time dancing at the Belle Union Saloon.

The second day of the Mounted Shooting completion began after another amazing amount of rain had fallen onto our arena. There was no shortage of mud! As we tried our best to dry off, we focused on how we were going to run the courses for the day. Each rider/driver paid close attention to the specific course of fire while planning how they would implement appropriate horsemanship in their runs. Stages 4-6 were filled with excitement, frustration, slick corners around the barrel, and a few

horses that had a different plan than the shooter who was riding/driving them! There were some misses, but then again, there were some memorable runs with speed, clean-shooting, and amazing horsemanship. We watched the Buckaroo, and Buckarett run all the courses with confidence and a reminder of ourselves when we were younger and just so happy to be on our horses!

As we finished the Main Match, five courageous souls reached for their shotguns to defeat the two shotgun stages. The competitors ran the stages with all of their might, taking out each balloon with excitement as they dropped the reigns and picked up their shotguns, but it was Clinch Cutter who ultimately ran the courses the best with a 44.558 seconds for two runs!

Once the shotgun shooters were done, some of us wild side Quick Draw competitors gathered at the far side of the arena to see who's got the fastest draw of them all! We even had two Cowboy Action Shooters™ join us and our balloon setter thought he'd try his hand as well. Every shooter who stepped up to the line with their .45 caliber revolver loaded with five blackpowder blanks sitting firmly in their holster would run across the start line, shoot five balloons, re-holster, and cross back over the timer. It was a fight until the finish, when TR Twister (SASS #86853) pulled out an amazing 2.972 seconds!

Finally, the Pony Express Extreme Team Race ended things. Riders and drivers teamed up to master a course of fun obstacles and fun shooting. It was quite the race. Finally, it was time for all of us to unsaddle and unhitch our horses. We all said our goodbyes and look forward to stepping back into the Old West together next year. 🤠

in "Winchester Red."*

*Navy Arms Winchester 1873 belching white smoke as it was meant to.  
In this case it's a full-charge load of American Pioneer Powder Premium Grade FFFG  
and a 147-grain polycoated bullet by SNS Casting.*

**W**e've all seen the movie *Winchester '73* starring James Stewart. It follows a "One of One Thousand" Winchester 1873 rifle through a series of owners. The rifle is as much a main character as James Stewart—in the movie it is almost mythical. In a famous scene James Stewart (actually exhibition shooter Herb Parsons) shoots a bullet through a washer with a postage stamp over the hole—in the air. Only 136 "One of One Thousand" rifles were built in 1875 and 76. They were built around the best barrels, had the most beautiful wood, and flawless case hardening and bluing.

Navy Arms Corporation is responsible for the modern equivalent. Val J. Forgett, Jr. (July 31, 1930–November 25, 2002) founded Navy Arms Company, Inc. in 1956. He is considered to be the father of the replica firearms industry. The first replica was of the Colt 1851 Navy, hence Navy Arms. The company has been reborn under his son, Val Forgett II (pronounced For-Jet).

*(Continued from page 42)*

ibers. It has the original Winchester lever disconnect safety as well as a new firing pin block with a striker that prevents the firing pin from moving forward unless the trigger is pulled.

In SASS we like our rifles slicked up and short stroked. When I heard Jim Bowie tell of the modifications needed to enable shooting an Uberti 73 replica 10 times in less than two seconds, I realized some of us are shooting nineteenth century rifles. Others are shooting the Cowboy Action Shooting™ equivalents of NASCAR Stock Cars compared to your Chevy. The Winchester “innards” are not interchangeable with Uberti parts and there are fewer gunsmiths working on them. This is, of course, changing as the guns become more common. Having said that, let’s go on to the modern equivalent of the One of One Thousand.

Winchester rifles arrive at Navy Arms in the white with a 20" or 24" octagon barrel in either .357 Magnum or .45 Colt with no wood. Then the receiver and furniture are color case hardened. The barrel is polished blue. A Winchester short stroke kit is installed. Deluxe American walnut stock and forearm with full checkering and “Winchester Red” finish is installed with a checkered steel shotgun-style buttplate, a popular Cowboy Action Shooting™ modification because it aids fast mounting. Shotgun style steel buttplates were a factory option on original Winchesters, along with a lot of options we don’t see often in SASS, such as set triggers, 30" barrels, half-magazines, etc.

The result is a strikingly beautiful gun. When I picked up the test gun at Diamond J Gunsmithing in Albuquerque I could only think, “I’m not going to shoot this in a SASS match and throw it down on a table with one hand while picking up the next gun.” My eight-year-old 73 replica is on its second stock, and that one is glued and pinned together. The once really nice finish is pretty much gone. It looks like it’s been “rode hard and put away wet.” Such is the fate of most Cowboy Action Shooting™ guns. Of course, most of the originals were “rode hard and put away wet.” They were tools, not collector items.

Val Forgett thinks most buyers will purchase this because they will have gotten to a point in life where they can buy one of their dream guns and this one will go on the wall or another place of honor and get shot little. I can understand that. I have a pair of engraved, ivory handled SASS Colts. SASS24287, and 24287SASS. They seldom come out of secure storage. But if I didn’t have them I would lust after them. If you’re lusting after a really beautiful Winchester 73, this is one that doesn’t cost more than your house. It’s not cheap at \$2499. But you can see every dollar on it.

### Shooting

I took it to Founders Ranch and shot a batch of Bone Orchard .38 Special 125-grain LTC loads. The action was smooth for an out of the box gun. The hammer spring is stiff for what we do (5-7/8 pounds on my RCBS trigger pull gauge), but I got used to it quickly enough and could shoot it almost as fast as my very slick Taylors 73s. Trigger pull was 4-7/8 pounds. I didn’t try adjusting the spring to lighten anything. The short stroke was very good, about equal in throw to a Third Gener-

ation Cowboys and Indian kit.

The sight picture was familiar and very quick. Adding a Sure Hit front sight from Slick McClade's Slick Magic would speed up shooting at 15-yard SASS targets. For long range shooting or hunting it's just right. And I couldn't resist shooting a couple of my match loads of a full charge of American Pioneer Powder Premium Grade FFFG behind 105- and 147-grain polycoated bullets. I quickly felt right at home.

Someone will use one of these in SASS matches because he *can*. They're as close to being match ready as any out of the box Cowboy Action Shooting™ rifle, and they will certainly draw the attention of other shooters.

Just as someone will shoot SASS matches, someone

# THE Cowboy CHRONICLE

*The Cowboy Chronicle welcomes and encourages submissions of articles and match reports from any and all readers.*

**Please submit articles in MS Word or something compatible.**

Open Office and Apple Pages (saved as MS Word) are also fine. A count of 800-1500 words for the printed editions is a good target to shoot for, but shorter pieces are also fine, and we can accommodate larger reports in our virtual-only issues if the material warrants it. We may choose to break very lengthy articles up into two or more parts to run in consecutive issues, or heavily edit them, however.

**Please do not embed your photos in the Word document.**

They can be extracted for use in the The Cowboy Chronicle, but it can be a chore to do that. Instead, send your photos separately, in one or more emails, as attachments. Three to six photos per email usually works best. It's best to send JPEGs, but other formats are acceptable, and it's best to keep them at about 300 dpi and 3000 pixels (10 inches) on the short side. That will allow us plenty of leeway when it comes to cropping and adjusting them for publication, but in any case try to use photos that are at least 1000 pixels on the short side. If you're unsure of the size of your pictures, or how to size them, send what you have and we'll adjust them.

## SUBMISSION GUIDELINES

**Usually, six photos are sufficient for an article, especially for the printed version, but we will consider using more for a "big" event, if provided.**

The digital editions can accommodate more images, as well. Photos need not have captions, but captions always make photos more interesting. Ideally, the caption would consist of one or two sentences that say something about the picture that is not obvious and/or is not implicit in the body of the article. "Sam making smoke" is a title but not a caption. "Sam, SASS #XXXXX, shooting his first black powder match; after much deliberation, he decided to give it a try and now he's hooked" is much better. A caption may also serve to let everyone know why the picture is worthy of being published in an international newspaper.

**For digital editions, short video clips may also be included.**

MPEGs, AVIs, WAVs, etc., may all be embedded in Chronicle pages, with MPEGs (mp4) preferable. A better option would be to post your video to YouTube and then provide us with the YouTube link. Those will be viewable provided the reader is connected to the Internet.

**Please use [editor@sassnet.com](mailto:editor@sassnet.com) for all article submissions.**

*Portrait of a happy man (smiling on the inside, Captain on the outside) after shooting the Navy Arms Winchester 1873.*

## Dispatches From Camp Baylor . . .

will take it hunting. It will work with full charge .357 Magnum hunting loads. Then they'll be able to tell their grandkids they got that buck with a Winchester 73 just like the one Jimmy Stewart used in *Winchester '73*. Then their grandkids will say, "Who?"

### Navy Arms line

In addition to the Winchester 1873, Navy Arms also does other guns of interest to SASS members. They do similarly finished Winchester 1892s in .45 Colt and .44 Magnum and they import a Lightning rifle made by Petersoli in .45 Colt and .357 Magnum and finish it in the US with bone charcoal color case hardening and fire-blued screws, polished blued barrel, and American walnut.

They also import a couple of unique Civil War era black powder firearms, a Parker-Hale Whitworth (a Confederate sniper rifle) and a Smith carbine which, on their website it was noted it was "an upgraded model of the most famous breech-loading carbine of the War of Northern Aggression."

# SHOTGUN BOOGIE

## Coil Mainspring Kit

By Larsen E. Pettifogger, SASS #32933 Life Regulator

Larsen E. Pettifogger, SASS Life #32933

Shotgun Boogie's coil mainspring kit for the Uberti 1873 rifle consists of a new hammer, hammer strut, coil mainspring, and a strut bearing block (Photo 1). There are two hammers available. The first has a very

precise sear cut made to mate with Boogie's trigger kits (Photos 2 and 3). With these triggers and hammers the trigger pull can be set to one pound. As shown in Photo 3, there are two trigger kits. One has a fairly straight trigger and one has a profile that approximates the shape of the stock trigger. (A detailed article on installing the trigger kit can be found in the January 2015 issue on page 36.) Uberti sears are not machined as precisely as the Boogie sears so a second hammer is available for use with the Uberti sear

and trigger set-up (Photos 4 and 5). This hammer has a setscrew that allows sear engagement to be adjusted to work with the stock sears. We will be installing this ham-

### Shotgun Boogie • Coil Mainspring Kit . . .

mer in this article.

We have discussed disassembling the Uberti 73 several times and won't repeat the basic takedown here. Once basic takedown is completed remove the two screws on either side of the lower, rear receiver and remove the lower tang/trigger assembly (Photo 6). If it is a tight fit use caution in removing it as the lower edges of the

frame can be very sharp. Remove the mainspring screw and mainspring (Photo 7), then drive out the hammer pivot pin and remove the hammer (Photo 8). Next, remove the trigger spring. Shown on the right in Photo 9. Drive out the trigger safety pin and remove the safety bar (Photo 10). Finally drive out the trigger pivot pin

screw it in place using the stock mainspring screw. Insert the strut and chances are it will hit the screw (Photo 13), so it will have to be shortened. Handling a small hot screw can be a chore but there are ways to save your fin-

gers. Photo 14 shows three screw “gizzies.” The center one is from Brownells, the other two are homemade. On the right is an old bottle opener (which is made of good steel), drilled and tapped for 6-32, 6-40 and 6-48 screws. The holes in the Brownell’s gizzie were too small for the mainspring screw so the gizzie on the left is a piece of scrap aluminum drilled and tapped 10-32, which is the mainspring screw size (Photo 15). With the flat aluminum bar it is fairly easy to keep the end of the screw

17

angle, which causes the strut to move up and down, when the hammer is cocked. We don't want the strut dragging on or hanging up on the screw.

The strut is a fairly tight fit in the strut block and can bind as the strut moves back and forth and up and down through its normal range of movement. To smooth things out take a stone or fine tooth file and run it down the four edges of the strut (Photo 17). We just want to break the

## Shotgun Boogie • Coil Mainspring Kit . . .

18

19

20

21

sharp edges of the strut so that it moves smoothly in the strut block. Put the hammer in the trigger guard and hold the strut in place with your fingers and move the hammer back and forth (Photo 18). If everything feels smooth put the coil spring in place and move the hammer back and forth again. If the strut moves smoothly you are done and can move on to final assembly. Fitting the strut block on a pistol grip 73 takes a little more work. When the block is attached to the frame the flat bottom of the strut block does not match the curve of the trigger guard (Photo 19). Align the main-spring screw hole over a belt sander and touch the trigger guard to the sander until you have a small flat for the strut block to sit on (Photo 20), then take a fine tooth round file and

radius the edges of the strut block hole to accommodate the steeper angle at which the strut will be sitting on the curved trigger guard (Photo 21).

Reassemble the trigger guard by replacing the trigger and sear, replacing the safety bar and its spring, and replacing the trigger spring and its screw. Place the new hammer in the trigger guard and we are ready to install the coil spring. There is a hole in

the bottom of the strut. Slide the coil spring over the strut, compress the spring and slide on the strut block. Put a nail, punch, or something else in the hole to retain the spring. In (Photo 22) I used the Allen wrench that fits that set screw in the hammer. Place the assembly in the trigger guard and install the shortened mainspring screw. Snug it down but leave it loose enough so it

### Lightweight Folding Gun Carts

Our carts are as handy as a pocket on a shirt - and dang near as unique as you! With so many options to choose from, you can create a cart that's fittin' to you and your gear. Take a gander at our website to see the different styles, colors and options!

[www.ruggedgear.com](http://www.ruggedgear.com)  
**800-784-4331**

thumb on the hammer and your right hand index finger on the trigger safety. Use your left hand index finger to operate the trigger (Photo 23). Press the safety, pull the trigger, and move the hammer back and forth. If the trigger pull is too heavy or light insert an Allen wrench into the setscrew and adjust it to shooter preference (Photo 24). Once adjusted a drop of blue Loctite will hold it in place. When making these tests and adjustments remember there is no half-cock notch on the hammer so maintain control over the hammer or the strut and coil may come out of their seat on the back of the hammer.

There is one more step before the installation is complete. Slide the butt stock onto the fully assembled trigger guard (Photo 25). Look for interference between the coil spring and the channel in the bottom of the stock. The stock may slide on with no interference with the coil spring. Remember however, as the hammer moves forward from full-cock towards the fired position, the strut moves up a bit. Squeeze the trigger guard firmly into the stock with your hand, press the trigger (while retaining the hammer) and slowly lower the hammer. On most stocks

## Shotgun Boogie • Coil Mainspring Kit

there will be some interference with the coil spring before the hammer is in its fully down position (Photo 26). Take a rat-tail file or Dremel and remove a little wood from the bottom of the stock channel as shown by the pointer in Photo 27. Once there is sufficient clearance between the coil spring and stock reassemble the gun. What do you end up with? A truly light and smooth feeling to the lever with no stacking.

Someone who is comfortable in fully disassembling a 73 should be able to install the kit. For those who don't want to do the work themselves, Shotgun Boogie is now as close as your mailbox. Visit Shotgun Boogie's new website at [www.sbgwllc.com](http://www.sbgwllc.com) for pricing and other gun parts and accessories. He can be contacted at [info@sbgwllc.com](mailto:info@sbgwllc.com).

## A Few Thoughts

By Colonel Dan, SASS #24025 Life

I've seen Republicans form circular firing squads many times over the years, but I've never seen the chasm we're witnessing today—a growing divide so deep and wide it won't accomplish anything but handing the Oval Office to a radically progressive Democrat! Not only are establishment Republicans split over who will represent them this November, so are patriotic constitutional conservatives. Many of these patriots are now telling me they'll be staying home or voting third party... and we all know from hard experience how *that* ends!

Unless Anti-Democrat elements unite—at least at the ballot box—we WILL have a president who will continue Obama's fundamental transformation (*i.e.* destruction) of the country but at an ever-increasing pace. Their left leaning ways will not only

edge us ever closer to full blown socialism or radical fascism during the next four to eight years, it will do so at a gallop and their legacy will be tragically far reaching for many generations to come. Why's that Colonel? The next president will undoubtedly have the opportunity to nominate three—possibly five—new Supreme Court Justices. If it's a Democrat, the left will be calling the shots on *all* our unalienable rights... and you can bet the Second Amendment will be at the top of their list! By the time the next Democrat president leaves office, we will be living in an America our generation would never recognize. And don't for one short second think the "opposition party" would stop them. How effectively have they stopped Obama over his two terms. In fact, as I've written before, the GOP was and is not only unconscionably lax in their duty, they were and remain complicit in this transformation.

I can foresee your right to keep and bear arms negated by a revisiting of Heller and a complete reinterpretation of the Second Amendment. "I'll never turn in my guns. They'll have to physically take them away over my dead body" many will say now. But I can imagine a time coming when those same people will quietly turn their guns over to the government. I don't believe government agents will come knocking on your door with armed force, but instead tie your compliance to something you need to survive. If you require a license of any sort to make your living, you'll be denied that license until you comply. I can also foresee compliance linked to your income tax with the IRS as part of the enforcement process. The ground work has already been laid for such a strategy and the Republicans have fully funded it... it's called Obamacare.

Now that the government is playing an increasingly larger role in providing and regulating every aspect of your health care, can't you envision a time after the new Supremes reinterpret the Second and the "common sense gun registration and confiscation acts" become law, that your access to health care hinges upon your compliance. And do you think for one minute this couldn't happen in America? Think again. As with any form of ever-growing government, it will continue to expand its reach until it is physically stopped by "we the people." Unfortunately, I see few if any signs of such a major movement on the horizon. America doesn't yet have the collective will to do so. Not to say such

## Election 2016 • A Few Thoughts . . .

a movement will never manifest itself but those signs haven't yet become apparent.

Under a Democrat president, you can expect continuation of an ever growing national debt, higher taxation, a dramatic increase in regulatory "law," a surrendering of our national sovereignty to the UN, more cozying up to communist rulers throughout the world, and a general loss of individual liberty unparalleled in our history. Think I'm crying wolf and overreacting? Think about it. Just ten short years ago, could you have predicted the current pace of growing statism and government rule in America. It only took one president and the complicity of the Republicans to take us down to this level. Think what could/will happen if a like-minded follow-on president takes office. Seeing how easily Obama got away with his vision of fundamental transformation, their appetite for power will grow geometrically... just as it has with all such power mongers throughout history. If this is what you're willing to accept and or want, then anything except a vote for the Republican ticket is a tacit vote for worsening tyranny.

Believe me when I say the GOP's presumptive nominee, was *never* my choice but this seems to be the situation we face and to ignore that reality is pure folly. Will a President Trump disappoint? Yes, most assuredly. He will not and cannot follow through with all his bold campaign rhetoric that stirred many to his side. But personally, I would much rather face some degree of disappointment than the expanded destruction the Democrats would most certainly bring.

I once posted the following on the Team SASS forum, "There are four ways Democrats can win: 1) People actually vote them into office. 2) Disgruntled Republicans and Conservatives vote third party. 3) Disgruntled Republicans and Conservatives stay home. 4) Rampant voter fraud where felons, illegals, and the deceased put them over the top. You can impact three of those four by simply voting for the Republican ticket." *Under our current system*, anything other than that will help usher a radical progressive into the Oval Office. Do I like that choice... **NO!** But I'm also a realist. The **ONLY** way the Democrat loses is for patriots to unite and vote for the Republican. As disdainful as that is to me and millions of others, it is the *only* way at this historical juncture.

I agree, Republicans seem to exacerbate this internal division every time they open their mouths—almost intentionally so, but that's not the focus of this essay. My one and only purpose here is to ask you to think about the serious consequences of handing the presidency to the extreme left *yet again*. Yes, there is much to dislike about the entire GOP, I get it more than you might realize. But again, I'm a realist and I'm dealing with the reality at hand. I think I can say our right to keep and bear arms will be much more secure under a President Trump than any Democrat and that's what Team SASS is all about. That is our focused mission; it's our charge. I simply ask you to think about this in a realistic way before making your final decision on who gets your vote. There is just too much at stake to let this slide. Steel your nerve, remain resolute and soldier on my friends...
